- VOCATIONAL EDUCATION  
Whisson, M. 665.7023 WHI  
A valuable curriculum support resource for secondary schools, based on the North West Shelf Gas Project.
- WATER: AGRICULTURE WAT  
One poster, published by the Overseas Aid Program, helping those in need. Farmers produce more food when they have a reliable supply of water.
- WOOL 677.31 HAM  
DAIRY 636.2142 TAY  
WHEAT 633.110994 HAM  
An interesting set of books covering all aspects of each particular type of farming as practised in Australia. They give a comprehensive picture of farm life, the day to day work and problems. They reveal how the farmer must look after the crop or stock carefully and provide a healthy environment to produce quality products. The production process is followed through to the final consumer products. The text is well illustrated with colour photographs of real Australian farms and interspersed with jokes and surprising snippets of information. Upper primary.
